EXECUTIVE SUMMARY

BION Solutions LLC is a veteran-owned procurement partner focused on mission-critical medical products, IV solutions, and institutional healthcare sourcing for federal and defense buyers. Through certified manufacturing partnerships and disciplined supply-chain execution, BION supports supply continuity, surge-ready fulfillment, regulatory compliance, lot traceability, and operational readiness for time-sensitive procurements.

CORE CAPABILITIES

- **Medical Supplies & IV Solutions:** Pre-filled IV bags, parenteral solutions, infusion sets, access devices, and essential consumables.
- **Pharmaceuticals, Vaccines & Diagnostics:** Specialized medications, vaccine support, and diagnostic or lab equipment.
- **Institutional Healthcare Procurement:** Large-volume sourcing for federal agencies, hospitals, military treatment facilities, and response programs.
- **Surge Readiness:** Routine replenishment and contingency fulfillment for demand spikes and emergency operations.
- **Traceability & Documentation:** Lot traceability and compliance packages aligned to buyer requirements.

KEY DIFFERENTIATORS

- **Government Buyer Readiness:** Built for public-sector timelines, documentation discipline, and mission-driven execution.
- **Medical Supply Continuity:** Sourcing strategies designed to reduce shortages and support routine or surge demand.
- **Certified Supply Network:** Dependable sourcing through internationally certified manufacturing partners.
- **Traceability & Storage Controls:** Full lot traceability, documentation support, and cold-chain or controlled storage readiness where required.
- **Regulatory Alignment:** Supply sources aligned with FDA, CE, ISO 13485, ICH, WHO, ANVISA, and COFEPRIS as applicable.

FEDERAL HEALTHCARE & PROCUREMENT READINESS

BION Solutions supports **Federal Agencies, Defense Medical Commands, VA and Military Treatment Environments, Public Health Programs, and Emergency Preparedness Operations** requiring scalable sourcing, rapid deployment, and disciplined procurement execution. That readiness is reinforced by demonstrated coordination of recurring high-volume pre-filled IV bag sourcing and delivery through certified manufacturing channels.

PAST PERFORMANCE & CREDIBILITY

Public-Sector Mission Support (2021-2024): Supported TPWD and local police departments with mission-essential equipment and gear for operational readiness.

Defense Training Support (2018-2022): Supported the AMED Fort Sam Houston biological training course with staff support, biowarfare and chemical warfare training support, product supply validations, and mission-readiness support.
